Peerless® Handcuff Company

Setting the Standard Since 1914

Peerless® Handcuff Company offers a full line of restraints including chain link handcuffs, hinged handcuffs, oversize handcuffs, leg irons, and waist chains. All of our products are designed to meet or exceed the tough U.S. National Institute of Justice standards for strength and quality.

Peerless® Handcuff Company was established in 1914 by James Milton Gill in Springfield, Massachusetts. Over eighty years later, the classic swing through design of the original Peerless® handcuff, continues to be the industry standard. Now in its fourth generation, Peerless® remains a family business committed to producing the finest restraints available.

All our products are manufactured to meet the rugged demands of law enforcement, correctional, security, and military personnel throughout the world.

Please call (800) 732-3705 with any questions concerning our products or the location of a local distributor. Information is also available through our web site at www.peerless.net or through email at info@peerless.net.

Peerless® Handcuff Company introduces its newest model handcuff

Long known as a company of tradition and integrity, Peerless strives to meet the changing needs of its customers. With the view to the ever increasing economic constraints on law enforcement, corrections and public safety agencies, we are introducing our imported Model P010 Chain Link Handcuff. Designed and manufactured to exacting standards, this handcuff is offered at a lower price to fit tight budgets without compromising safety. Our commitment to quality is never compromised. The Model P010 is a standard size handcuff with double locking capability and two keys supplied. The Model P010 is NIJ approved and comes with a lifetime warranty for manufacture defects. See more details inside.

M700

M7030

M801

M703

MODEL 700 **Chain Link Handcuff**

The classic design. The Model 700 incorporates spun rivet construction for strength and durability. Smooth single strand action allows for fast and efficient cuffing. The profiled edges minimize the risk of tissue and nerve injury. The Model 700 has been approved by the National Institute of Justice. Double locking with two keys supplied. Also available with high security lock set up as Model 710. It comes with a lifetime warranty for manufacture defects. Made in USA.

MODEL 7030 **Oversize Chain Link Handcuff**

The Model 7030 is designed specifically for larger individuals or special security applications. This oversized cuff has a 20% larger inside perimeter than the Model 700. The Model 7030 has a smooth single strand action, profiled edges and spun rivet construction. It meets or exceeds the National Institute of Justice standards for workmanship, mechanical strength, tamper resistance and corrosion resistance. Double locking with two keys supplied. Also available with high security lock set up as Model 7030HS. It comes with a lifetime warranty for manufacture defects. Made in USA.

MODEL 801 **Hinged Handcuff**

The Peerless® Model 801 provides additional restraint by more effectively restricting hand and arm movements. The Model 801 features all steel construction, spun rivets, machined edges and smooth single strand action. The Model 801 has the ability to fold flat for compact storage. It has a 10% larger inside perimeter than the Model 700. Double locking with two keys supplied. The Model 801 has been approved by the National Institute of Justice. Lifetime warranty for manufacturing defects. Made in USA.

MODEL 703 **Leg Iron**

The Model 703 Leg Iron features all steel construction, spun rivets and a rust resistant nickel finish. It is made to meet or exceed the National Institute of Justice standards for workmanship, mechanical strength, tamper resistance and corrosion resistance. Machined edges minimize the risk of tissue and nerve injuries. The 15" chain effectively limits range of motion. Double locking with two keys supplied. Also available with high security lock set up as Model 703HS. Lifetime warranty for manufacture defects. Made in USA.

MODEL 705 **Oversize Leg Iron**

The Model 705 is designed specifically for larger individuals. It has a 3.25 inch opening with a maximum inside perimeter 20% larger than the Model 703 Leg Iron. The Model 705 is made to the same standards as other Peerless® products. It features all steel construction, spun rivets and a rust resistant nickel finish. The 15" chain effectively limits range of motion. Double locking with two keys supplied. Lifetime warranty for manufacture defects. Made in USA.

MODEL 7002

Waist Chain with Handcuffs Located at Hip

The Model 7002 Waist Chain is designed for maximum security situations. The Model 7002 has one Model 700 handcuff positioned at each hip allowing for either parallel arm or cross arm handcuffing technique. The special heat treated steel chain and padlock rings assure adjustment up to 54 in. waist. Double locking with two keys supplied. Also available with high security lock set up as Model 7002HS. Lifetime warranty for manufacture defects. Made in USA.

MODEL 7003

Waist Chain with Handcuffs Located in Front

The Model 7003 Waist Chain is designed for high security transportation, courtroom and processing situations. The Model 7003 Waist Chain has a set of Model 700 Chain Link Handcuffs positioned at the navel allowing for limited use of the hands. The special heat treated steel chain and padlock rings assure adjustment up to 54 in. waist. Double locking with two keys supplied. Also available with high security lock set up as Model 7003HS. Lifetime warranty for manufacture defects. Made in USA.

HIGH SECURITY RESTRAINTS

Peerless high security products are designed for high risk prisoner restraint and transport situations. These products do not operate with standard handcuff keys. The restraints incorporate standard product with a MEDECO® or ASSA® Desmo high security lock system and Lexan® polycarbonate housing. MEDECO® and ASSA® Desmo are recognized leaders in pick resistance lock systems.

Multiple sets can be ordered with two different key options. Each set can be keyed alike or each set can be keyed different. Both MEDECO® and ASSA® Desmo use restricted key control systems to prevent unauthorized key duplication. The Lexan® polycarbonate housing is nearly unbreakable and is color coded orange for high visibility.

The high security set up is available as the Model 710 – High Security Chain Link Handcuff, Model 703HS – High Security Leg Iron, and Model 7002HS and & 7003HS – High Security Waist Chain. Features include spun rivet construction, double lock capability, and profiled edges to reduce risk of tissue and nerve injuries. All products come with two keys, a double lock activator, and a lifetime warranty for manufacture defects. Made in USA.

MEDECO® is a registered trademark of Medico High Security Locks.

ASSA® Desmo is a registered trademark of Abloy Security, Inc.

Lexan® is a registered trademark of General Electric Company

Peerless® Handcuff Company introduces the new Model P010 Chain Link Handcuff

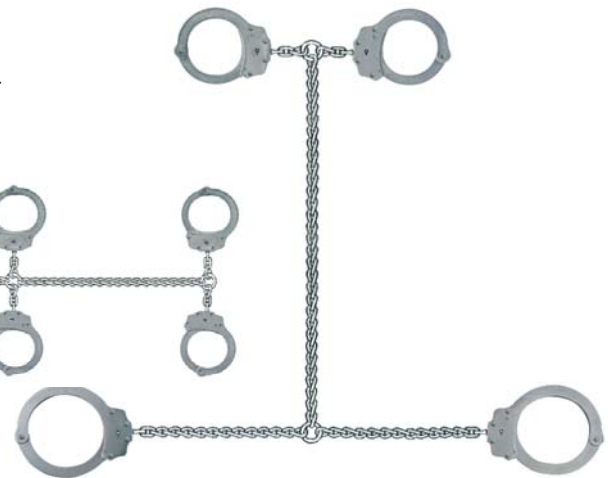

The Model P010 Chain Link Handcuff is intended to fit increasingly tight budgets without compromising safety. Designed and tested to rigorous standards to meet the tough demands often placed on this critical piece of equipment the P010 is manufactured in Korea at an ISO/TS 16949 and ISO 14001 certified facility using high quality materials and component parts. The P010 has been tested and approved by the National Institute of Justice as meeting the current US government standards for metallic handcuffs. Our newest model is standard sized, double locking, with two keys supplied. It comes with a lifetime warranty for manufacture defects.

Custom Chain Work

Peerless® offers custom chain work built to meet specific requirements. Using component parts from standard models different configurations can be manufactured to meet unique situations. Some designs are simple such as adding more links to a Model 7002 Waist Chain to accommodate larger individuals. Other designs are more complex such as a multiple station prisoner transport chain for special transport situations. Custom restraints may be available with the high security lock option. Having the right tool for the job will help ensure officer safety. Call 800-732-3705 for to learn more about how special restraint needs can be met.

OVERSIZE HANDCUFF KEY

A high quality extra large key designed to make double locking and unlocking restraints faster and easier. The extra long aluminum barrel is oversized and knurled for lighter weight and easy handling. The flag tip and double lock pin are made from heat-treated alloy steel for high strength and durability. Compatible with all standard type handcuff locking mechanisms. Available in silver and black finish. Comes with a key ring and lifetime warranty for manufacture defects.

Oversize keys shown actual size.

STANDARD HANDCUFF KEY

Standard size handcuff key. Small and lightweight. Compatible with all standard type handcuff locking mechanisms.

CUFFCLIP™

CUFFCLIP™ is a convenient, efficient, and safe way to carry as many as 12 pairs of handcuffs. Invented by a law enforcement veteran, the patented **CUFFCLIP™** is designed to be worn with a standard size 2.25 in duty belt. The simple but durable device consists of a heavy duty stainless steel main spring welded to a pair of belt loops. Handcuffs are easily carried and can be quickly and efficiently managed with one hand while reducing the chance of a prisoner gaining access to unsecured handcuffs. It comes with a lifetime warranty for manufacture defects.
