

KRAKEN WATER BUMP HELMET

ABOUT

Kraken Products has developed the Kraken fast water bump helmet to be rated as one of the lightest helmets available in its class whilst maintaining excellent durability, integrity and protection, the Kraken fast water bump helmet has been designed around the professional user who currently uses a product developed for recreational and sports use. By reducing the weight and adding the many important modifications such as zero reflective surface matt black finish, hard wearing goggle strap, light stick holder and cold water vent plugs as standard.

We have also included a multi language sticker kit which contains hard wearing waterproof stickers for police, military and search and rescue. The Kit also includes a waterproof Velcro patch for easy attachment of national identification Velcro patches. Each helmet comes in a durable mesh bag with ID strip so helmets can be quickly identifiable and kept safe.

The Kraken water bump helmet is certified to CE-EN1385 water safety standards and produced in our ISO 9001 manufacturing plant. The Kraken Water Bump Helmet is the true professional's choice.

TECHNOLOGY

The water proof interior foam offers the wearer maximum protection and comfort without soaking up any water. This has again been designed with the professional user in mind giving maximum protection with minimum weight.

Air vent plugs for use in very cold water and weather conditions. These are designed to stop water freezing inside the helmet which stops added weight and the helmet sticking to your hair and hindering quick removable

Kraken Head Lock fit system offers maximum comfort and protection and massively reduces helmet movement on the head. This has been designed with the professional user in mind so that quick adjustments can be made when worn with a skull cap, bandana or balclava.

For the professional user the entire surface is matt black with zero reflective surfaces making the product stealth for covert use.

Kraken has designed and developed a unique hardwearing goggle strap for the professional user. This allows you to quickly remove your goggles without losing them. The goggle strap also includes our unique light stick holder which holds Illumiglow 1.5inch sticks. This makes it simple for you to mark each other for quick and clear identification.

Our international sticker pack includes hard wearing identification stickers in 7 different languages for military, police and search and rescue. The pack also includes a waterproof Velcro patch so that national ID patches can easily be attached.
(Languages- English, French, German, Spanish, Italian, Arabic, Chinese.)

SIZING

Kraken Products have produced a unique head lock fitting system to reduce the amount of movement when the helmet is being worn. The fitting system was designed with professional users in mind giving ample room for skull caps, bandanas and balaclava's etc but also being able to quickly and simply adjust the fit when worn without.

Small – Medium = 51 – 56cm
Medium – Large = 53 – 59cm
