Go ahead. Get out. Challenge the world outdoors. Whatever your pursuit, Wiley X keeps your eyes protected. And you won't sacrifice attractiveness for protection when you wear Wiley X eyewear. We know you have to share the outdoors with sun rays, debris, wind, dust and pollen which can irritate and even damage your eyes. And yet, looking your best when you come down off the mountain, or climb off your bike, is absolutely just as important. So Wiley X designs eyewear the way you live your life. We make every pair with equal parts high-performance technologies, real-world functionality and kick-butt style. Wiley X Eyewear: for off-the-chart eye protection, and out-of-this-world looks.

**WHETHER YOU'RE WORKING HARD, PLAYING EVEN HARDER,
OR JUST HANGING OUT AND LOOKING GOOD, WILEY X HAS ANSI
CERTIFIED EYEWEAR THAT PROTECTS IN YOUR ENVIRONMENT.**

THE WILEY X FACTOR:

GREAT-LOOKING DESIGNS

NEARLY INDESTRUCTIBLE CONSTRUCTION

SHATTERPROOF SELENITE™ POLYCARBONATE LENSES

Each Wiley X lens is made from one of the world's most impact resistant lens materials (trust us, we've scoured the globe for durable lens ideas). They far exceed ANSI Z87.1 safety and ANSI Z80.3 optical standards.

SCRATCH RESISTANT LENS HARDCOAT

Wiley X lenses protect eyes; this resilient coating protects the lenses. Get fewer of those annoying little scratches and nicks.

UNBREAKABLE TR 90 FRAMES

Customers have even reported that frames run over by moving vehicles remain intact. That's the immeasurable advantage of owning Wiley X eyewear.

ULTRA FOAM™ AND FACIAL CAVITY™ SEALS

Select styles totally seal your eyes off from the outside elements with Ultra Foam™ inserts and a technology we call Facial Cavity™ design. They're designed to fit and seal comfortably over any eye socket. Made to fit the universal face.

WILEY X POLARIZED LENS 101:

8 LAYERS TO CLARITY

SLICK™ Clear optical coating is a super hydrophobic mixture that repels water, salt water and ice from the lens. It prevents surface spotting. This advanced coating makes smudges and stains easy to remove with soft micro fiber cloth enclosed with all Wiley X frames.

T-SHELL™ This flexible hard coat adds an extra layer of scratch resistance to each lens for added protection and longer life. Keeps the lens from cracking or crazing to maintain clear vision.

SELENITE™ POLYCARBONATE LENSES
Source of the shatterproof reliability of Wiley X lenses. Each lens is die-cut from a larger lens blank to eliminate distortion and provide optical clarity at all angles. 10x more impact resistant than glass or resin lenses and easily exceeds global impact standards.

FILTER 8™ POLARIZED FILM This proprietary film adds 99.9% polarization to 100% ultra violet protection for unequalled clarity and contrast. In conjunction with our other high tech coatings, allows fantastic amount of light to reach the eyes' pupils. Helps achieve perfect visual acuity.

VIOLET 4™ AR (ANTI-REFLECTIVE) COATING

Adds another optical filter to each lens to eliminate back-lit glare, a major cause of eye fatigue and strain.

FILTER 8™ TECHNOLOGY

LENS ANATOMY

Fending off sun, wind and debris is the #1 priority of Wiley X lenses. We accomplish this through incredible materials and precision manufacturing when crafting every lens. We start with the shatterproof Selenite™ lenses. Individual polycarbonate lenses are formulated and die-cut to eliminate distortion. Result: precise optical clarity and optimal visual acuity. We add the precise amount of dyes needed to eliminate eye fatigue and strain. All Wiley X lenses block 100% of the sun's harmful ultraviolet rays (up to 400 nanometers). Because in the end, enhancing vision is the Wiley X way.

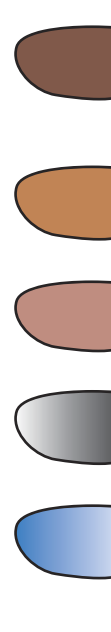

LA™ LENSES Darken as the brightness of the sun dictates. Darkest on bright days, clear on overcast days. Maximize optical clarity. Shatterproof. See Page 7 for details. Light transmission: 85% to 17% (in sunlight).

SMOKE (GREY) LENSES* Maximum glare reduction. Won't distort colors. Excellent in bright/glare conditions. Light transmission: 20.23%, 13.40% Polarized.

CLEAR LENSES Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light transmission: 89.30%.

LIGHT RUST LENSES Filters out blue light waves, the chief component of glare and haze. Enhance contrast in medium to low-light conditions. Light transmission: 53.23%.

SMOKE GREEN LENSES* Maximum glare reduction without distorting colors. Great for general daytime use. Light transmission: 21.09%, 19.03% Polarized.

BRONZE BROWN LENSES* For superior visual definition. Increase contrast, enhance ground level contours in most light conditions. Light transmission: 20.15%, 19.25% Bronze Flash, 19.05% Bronze Brown Flash, 19% Polarized Bronze Brown.

COPPER LENSES* Great lens to curb glare and enhance contrast of colors found in various global terrains. Light transmission: 18.17% Polarized.

CORAL PINK LENSES Improve details and enhance depth perception when encountering low or artificial light conditions. Light transmission: 19%.

SILVER FLASH MIRROR LENSES* Multi-coat, Z-Oxide mirror over smoke lens. Reduces glare. Excellent on bright days. Light transmission: 7.19%, 9.60% Polarized.

BLUE SKY MIRROR LENSES* Multi-coat, over smoke lenses. Absorb reflections across mirror surface, diminish glare. Ideal in bright conditions. Light transmission: 19% Polarized.

Taking the Work & Play concept to new heights; Wiley X ANSI approved frames can be filled with a prescription safety lens that meets most on-the-job safety requirements. Certain restrictions apply—ask your Account Representative for more details.

Meets and exceeds ANSI Z87.1-2003 high velocity impact safety and optical standards.

*Polarized available in select styles. See [8-layers to Clarity](#) section for details on Wiley X Filter 8 Polarized Lenses. They provide 100% UV protection and 99.9% polarization from sun's rays.

LA™ LENSES LIGHT ADJUSTING

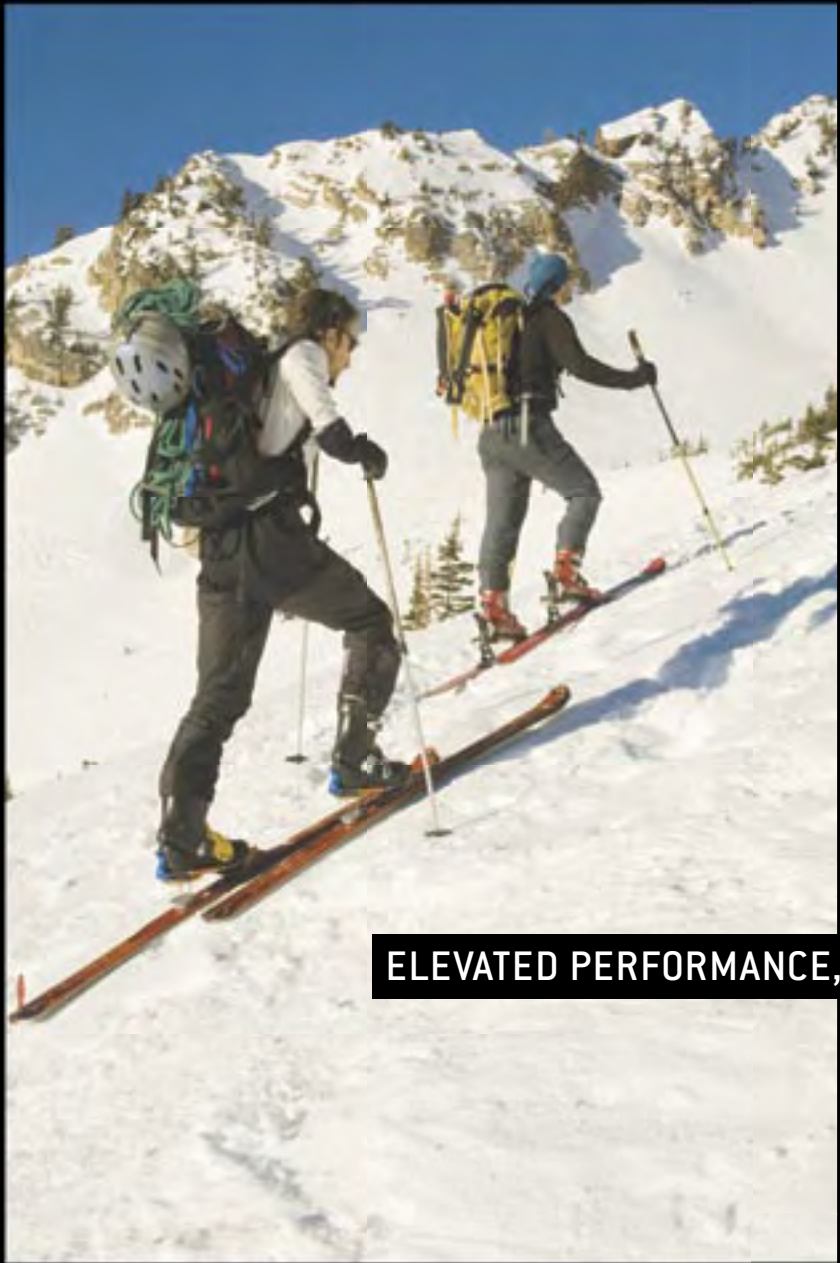

The most flexibility you can get in a single lens, they literally adjust to the light conditions so you don't have to. In bright conditions, they're dark; as the sky darkens, the lenses lighten. Optical clarity remains perfect no matter what kind of light the day brings. And since Wiley X uses shatterproof polycarbonate, the lenses are far safer than old photochromics [glass that could shatter on impact]. All in all, these lenses are state-of-the-visual arts.

TOP DOWN™ VENTILATION SYSTEM

Wiley X sealed eyewear not only keeps external forces from bothering you, it also keeps your own body heat from fogging things up. Specially designed Top Down™ Ventilation lets air flow through vents in the top of the Facial Cavity™ Seals and out the bottom, which means your lenses stay clear when things heat up. From barreling down a desert single-track to climbing up an unyielding rock face, Top Down™ Ventilation ensures clear vision.

ELEVATED PERFORMANCE,

EVEN WHEN YOU'RE JUST CHILLING.

ACTIVE SERIES

Triloid nylon frames, 8-layer impact resistant lenses, polarized and mirrored surfaces—everything you need for maximum eye protection, no matter what comes your way. Sleek designs and a snug fit (thanks to rubberized nose pads and temple gloves) characterize the Wiley X Active Series. As does their ability to turn heads during quieter moments.

TERMS AND CONDITIONS

All Wiley X models may be combined when compiling a quantity order. Extreme care is taken when packaging all products we ship. If a discrepancy occurs a claim should be made immediately.

Standard Terms: NET30 (upon credit approval); COD Invoices incur minimal shipping and handling fee; Credit Card (Visa, Master Card, Discover, American Express)

INTERNATIONAL CUSTOMERS

All shipments are sent prepaid and freight collect.

WARRANTY

All Wiley X products are fully guaranteed for one year from date of purchase on material and workmanship. This does not cover negligence in use of the product that extends to scratched lenses. Upon receiving the defective item Wiley X will repair or replace it at no charge. Authorization is not required for the return of defective merchandise. Please include the amount of \$5.00 for return shipping and handling.

RETURNS AND EXCHANGES

Returns and exchanges will not be accepted without receiving prior authorization. Returns must be in resalable condition, as determined by Wiley X for product not discontinued longer than six months. All returns must be shipped prepaid from point of origin, unless prior arrangements have been made. No COD returns accepted. New orders resulting from exchanges will be shipped upon receipt of returned merchandise unless other arrangements have been made with Wiley X. Customers are responsible for all shipping charges, both inbound and outbound. Returns should be sent attention: RETURNS DEPARTMENT.
